

What should we be doing for young people  
to prepare them for the new world?

**OUR MISSION** is to  
develop generations  
of innovators and  
leaders who will  
shape the African  
Century

## Half the world's youth

By 2050, the estimated number of young people entering the labour force there will exceed that of the rest of the world combined.

-- UNDP

## Quantity without Quality

"There have been substantial gains in achieving universal education...however, this increase in enrollment has not been accompanied by an increase in quality"

-- African Development Bank

## Educated but unemployed

"[In Africa] unemployment is highest among the most educated youth."

-- The Brookings Institute

## The rapid evolution of work

"47% of jobs will disappear in the next 25 years"

- Oxford University research

***The greatest opportunities to do good and to do well will come from those who possess the wherewithal to shape the world, and the dexterity to evolve with it.***

### **Ntando the Polymath**

A published author, a pilot, public speaker, radio show host, Brand SA ambassador and aspiring quantum physicist, Ntando is still just 16!

### **Georgia the Inventor**

Captivated and concerned about Cape Town's water crisis, Georgia invented and built a functioning prototype of a low-cost home water desalinator. Investors welcome!

### **Masego, Civic Mobiliser**

The founder of multiple community service programme that draw her peers into making contributions today, Masego has her sights set of civic and political service. Powerfully charismatic, meet your future president!
